INFINITE JEST INDEX

Last modified 6/26/02

This index is based on Tim Ware's Infinite Jest index [pregnant pause] well...in fact it **IS** Ware's index, and I post it here because the old url at ironhorse.com (indeed ironhorse.com itself) has gone to a better place. If Tim gets wind of this and asks me to remove it, I shall do so post haste.

1055; "pimple cream," (see fn 304a, p. 1062) **[NOTE:** this is not the chemical formula for benzoyl peroxide as some have suggested. (That formula is C₁₄H₁₀O₄.) And...as I was informed by a reader named Olympia McGurk, "...this is not benzoyl peroxide; its chemical name is propionyl peroxide (or more correctly but less commonly dipropionyl peroxide). It is a precursor used in the synthesis of some polymers but is most emphatically not pimple cream as DFW claims. I suspect it would burn your skin off." Although, Olympia continues, "I also realized that it could just be a printer's or editor's error: the formula would be correct for benzoyl peroxide if it were (C₆H₅CO)₂O₂ instead of (C₂H₅CO)₂O₂. The substitution of C₂H₅ for C₆H₅ (ethyl for benzyl) would be a natural error for someone who knew a little bit of chemistry but who wasn't thinking about aromatic rings."
